### **INDUSTRY & AYURVEDIC PHARMACY VISIT**

Industrial visit is considered as one of the practical methods of teaching. The main reason behind this- it lets student to know things practically through interaction, working methods and employment practices. According the route and time plan 38 students with 4 faculty members of our Jijamata College of Pharmacy, Sarati departed at 9.00 am and reached the VISHWACHAITANYA AYURVEDIC RASASHALA laboratories BARAMATI at 11.00 am, The Security officer Welcome the bus and guided for the entry in plant. two batches of the students were divided and one batch was headed for formulation plant and second batch was entered in quality control department.

The important processes of the manufacturing of the tablets and capsules were explained. They cover each and every small aspects of the tablet making by giving day todays life examples. Many students have asked the queries and the instructor has solved them very cleverly and politely. They started with the granulation plant and also explained the strict regulations followed in weighing of the all required chemicals used in the formulation. After granulation unit, batch was moved for the actual tablet making machines, all the machines were of automatic and with high efficiency. Some machines had finishes the batches and some were in actual working conditions. In the continuation there was a tablet coating unit all the students has seen and understand the procedures of tablet coating. In the second last part the batch was gone for the packing zone, there all the students has seen all types of pharmaceutical packaging as primary, secondary and tertiary packaging units. The last part of the plant visit was store house where they explained the storage conditions to be maintained.
